Welcome to Topsham Telephone,

Enclosed in this Customer packet is information about our company and services that are available at this time as well as features we are working on for the future. Please see the enclosed brochure with an explanation of features and pricing.

Our billing cycle runs from the 26th of one month to the 25th of the next month. Customers are billed one month in advance and *payments are due by the 15th of each month.* When you establish service, you will be prorated at a daily rate until the next billing, as well as, billed for the upcoming month of service.

Please note: New FCC regulations require a password to access your telephone account. The password must be 4 or more characters long. Please add this information in the space provided to you on your application.

To establish telephone service, you must:

- Complete and return to us the enclosed Application for Service
- Must have a valid 911 service address
- Establish a CPNI password for your telephone account (FCC regulation)
- Must sign Application for Service
- Pay security deposit or send 2 credit references from former utilities or they can be faxed to 802-439-5600 (Deposit held for 1 year of on-time consecutive payments then returned to your account as a payment.)

NOTE: A 439- NUMBER IS YOUR ONLY **FREE** EXCHANGE. Other exchanges in our Local Measured Service Area cost 3.5 cents per minute during peak hours and 1.5 cents per minute during off peak hours. (See enclosed list of towns in your local measured service area.)

You have equal access to several long-distance companies for your long-distance telephone service. (See enclosed list of available long-distance carriers.) Topsham Telephone also offers long-distance service at competitive rates.

Due to legislation, we no longer have the authority to contact our customers before making a PIC change on their telephone number. (A PIC change is when you choose to change your in-state and/or out-of-state long-distance carrier.) Legislation states that we are required to make the changes on your account based on information from the carrier and not from the customer. We need your permission to put a PIC freeze on your account that would give us the authority to call you to verify the changes before making a PIC change. All of our customers, by signing our application for service card, agree to a PIC freeze unless we are notified otherwise.

Contact our business office to request an internet application sent to you by mail or fax. You can also print our applications via the web site at: www.tops-tele.com.
